# Phone For Business.

## Part 1 Where to start

## Phone For Business.

So you need to find a phone for business to compliment your customer service delivery goals. The need for acquire a high performing, reliable phone system is generally at the front of all decisions. After all, how many businesses continue to thrive and grow over an extended period of time with absolutely appalling client communications systems.

Surecom has an extensive amount of experience in designing and delivering dependable communications platform for our clients. We understand what our clients need for their business and we are very aware of the need to make your dollars go a little further these days. We make it a point to discuss how you area actually going to use your phone system.

By far the most common request that we get from clients indicates that they want a phone, on a desk that works exactly like the one you can see over there. The fact that the phone mentioned is close to being an antique probably compounds the problem. We work patiently with you to explain how different phones have different features and different prices, and then work out which ones you actually need.

We generally recommend Avaya phone systems because of their reputation for innovation and reliability. Avaya IP 500 based phone systems are a world leading system that have had significant cost reductions because of the current strong dollar. You are in a really good position to take advantage of that situation right now, so make the most of it.

Make sure you get your system set up and configured correctly to avoid yourself plenty of frustration. There will be some configuration required depending upon how you want your phones setup, but unfortunately that is not always a plug and play process. At [Surecom Australia](http://Surecom Australia) we stake our reputation on phone for business solutions that work for our clients.

We are currently running the following promotion. July- August 2011 or until all licenses are sold.

We do offer these deals to our clients when they become available so be sure to check back with us to see how you may be able to save even more. [Surecom Australia](http://Surecom Australia)
